# Services

We handle the complete supply chain-from production and packaging to worldwide shipping-smoothly. With a strong focus on quality, cost-effectiveness, and efficiency, we help businesses streamline operations. We believe in collaboration to deliver the best solutions.

## • Designing

We don't compromise on delivering luxurious aesthetics in our granite and quartz products. Our talented designers adopt a flexible approach to ensure your vision is brought to life with elegance and sophistication.

## • Custom-made

With customized approach, we take care of an individual's unique utility, style, comfort, color pattern, and design. Hence, it naturally fits home.

## • Manufacturing

We craft premium granite and quartz surfaces in an array of designs and colors, elevating your home with breathtaking beauty and a touch of sophistication.

## • Quality Control

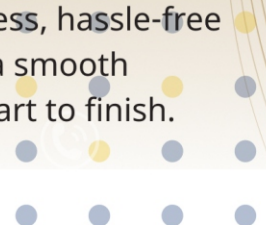

We provide 100% premium quality assurance on trading of our products. Our experienced QC team does a pre-shipment inspection and product audit before the product reaches at your door step.

## • Packaging

We consider packaging as one of the most important factors. We make sure proper packaging method is adopted for smooth product delivery.

## • Logistics

We offer logistics solutions at competitive rates, including shipping, door-to-door delivery, and global freight forwarding. Our goal is to provide seamless, hassle-free services, ensuring a smooth transaction from start to finish.

# Products

Being one of the top manufacturers and exporters of Granite Slabs in India, we provide high-quality granite for a multiplicity of purposes. These granite slabs are extensively used in interior decorations, countertops, flooring, and bathrooms within India as well as abroad.

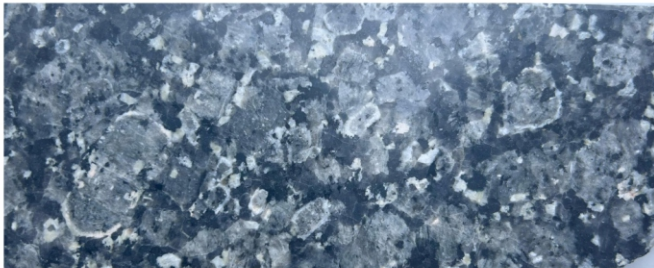

Our products exhibit superior craftsmanship and durability and will accentuate the elegance of the respective space.

# Infrastructure

## Factory - Natural Stone

### Granite Manufacturers and Exporters

Oceanic6 Solutionz is a principal granite manufacturer and exporter for those seeking the best natural stone products. The company extracts raw granite blocks from the best quarries in North India, as well as offering a full process of expert fabrication and installation using state-of-the-art equipment. The collection is extended with ornamental granite slabs, countertops, and tiles, designed to bring beauty and usability into any construction project. We can proudly say that we deliver world-class products following the preference patterns emerging today, as well as international quality standards. Adherent to the superior focus and durability, vibrant colors bring about nature's moods into any architectural or interior design. And with this, one can easily inspire spaces with our beautiful collections of granite for eternity.

# Manufacturing - Natural Stone

## Operational Manufacturing Unit with Fascinating Natural Stones and Engineered Granite

Fabricating Granite and Quartz Countertops is an art in itself. These are deep-rooted traditions running in communities since long. It takes proper care and planning to transform raw materials into a finished product along with creative minds and competence.

Oceanic6 Solutionz has two dedicated manufacturing units for Furniture and Granite pre-fabricated countertops. Our both units are fully-equipped with advanced machinery and equipment. We have been consistent in shaping the exceptional furniture and natural stone products with fascinating shades, patterns, thickness, and finishing.

Oceanic6 Solutionz exports the manufactured furniture and natural stone products across the globe. With 100% export-oriented manufacturing units, our trusted team of professionals maintain the top quality standards of products by means of their unmatched technical understanding and expertise.

# Quality Control

## Where Products are Built to Last

The consistent use of Prefab Granite/Quartz Countertops products is prevalent for residential and commercial construction projects. Both the product categories offer the amazing look and sturdiness to the interior and exterior of your living space.

As a manufacturer and exporter, we believe in presenting a clear picture of product production process to our global clients with the help of our experienced quality assurance team. Our quality control procedures are enacted by adhering to the buyer's specifications and minimizing the import risks.

## Packaging

### Safe Granite Packaging with Strong & Durable Mateals

Oceanic6 Solutionz pays equal attention to packaging process as much it pays to the production of quality-proven products. We comprehend the importance of safe packaging as broken tiles or spoilt finish of products can blemish the hard-earned reputation of our organization. It could prove to be a costly affair for both the manufacturers as well as the buyers of the product. At Oceanic6 Solutionz, Granite products are wrapped in EPA form sheets and are packed using export-quality strong wooden crates. These crates are fabricated using dry, good-quality, and strong wood that are capable to withstand the 1-tonne weight of the product.

# Loading

## Preparing Stone for Efficient and Damage-Free Transit

At Oceanic6 Solutionz, we know that loading is important for the safety of a product. Our people utilize laser precision in loading granite and quartz slabs with no room for any movement that could cause damage. Safe and efficient loading assures that we deliver every shipment ready for installation in perfect condition.

# Shipping / Delivery

## Timely Delivery of Granite – Our Top Priority

Oceanic6 Solutionz will ensure safe delivery for your granite slabs, irrespective of distance. Superior Packaging Solutions are inter-coastal, giving long sea voyages without risk to your investment if proper procedure is followed. Afterwards, our reliable door-to-door delivery will see to it that the package reaches you safe and sound and ready for use. Experience a fast and convenient process with guaranteed quality and timely delivery.
